TIPS FOR ORDERING DESIGN/PRINTING ON CAMPUS

1. **INCLUDE EXAMPLES** if you have some that you like or don't like.
2. **MEASUREMENTS** should be written width then height — this book is 8.5 x 11" folded and 11 x 17" flat.
3. **REVIEW** your Workfront form and make sure you included all the information such as size and quantity.
4. **MORE INFORMATION** is better than not enough, so please provide as much detail as possible on your order.
5. **PLEASE PLACE YOUR ORDERS** at least 10 business days before you need them. Our small department completes about 1,000 print jobs per year — so the more advance notice we have, the better we can serve you!

COMMON DESIGN/PRINTING TERMS

BLEED – The margin outside the trimmed area of a sheet that allows for colors and images to print beyond the edge of the page. The standard bleed is 1/8" of .125".

COMB BINDING (GBC) - A method of binding using rings attached to a plastic spine to secure pages.

RESOLUTION - The quality with which an images is reproduced or displayed. 300 dpi (dots per inch) at the size you wish the image to be is ideal for printing and 72 dpi is ideal for websites and digital signage.

SADDLE-STITCH - A book with inset pages secured by stitching wire (staples) through the fold line — like this booklet.

SCORE - Creasing a line in paper or a card so it can be folded cleanly.

SIGNATURE - A folded sheet of paper that creates 4 individual pages. An example is the cover sheet of this book. Page 1) the cover, 2) inside front cover, 3) inside back cover, and 4) back cover.

SPREAD - Used to describe any two facing pages of a document or publication.

SQUARE-SEAM SADDLE-STITCH - A saddle-stitch book that has a square spine. Mostly used for larger page-count books.

TRIM - To cut printed sheets to the required size.

VECTOR/RASTER IMAGES - Vector graphics are scalable to any size and maintain their crisp lines. Raster images use dots to create the image and cannot be scaled up or down without distortion — often referred to as pixelation.

ENVELOPES

Addressed Outer Envelopes, Business Reply

This is great for when you have a small amount of envelopes you need for a specific event or select group of people. Duplications can also address the envelopes, if needed.

CARDS

Postcards, Push Cards, Informational Cards, Hand-out Cards

Cards are the best way to get your information out to the masses. Whether it's potential students and their family with a postcard mailed directly to them or a push card sitting at an information table, we've got you covered.

BULK MAILERS

Mailing postcards as bulk mail is much more cost effective than mailing first class. Duplications and the Mail department have worked hard to integrate this system for mailing postcards at the cheaper bulk rate, saving money both in production and postage.
