

ADDENDUM #9

DATE: March 22, 2024

TO: Prospective Proposers

RE: Addendum #9
Electronic Access & Video Surveillance
Tyler Junior College
RFP #24-07

NOTICE TO PROPOSERS:

This Addendum forms a part of the Request for Proposal. Acknowledge receipt of this Addendum in the space provided on the Vendor Verification Form. Failure to do so may subject Proposer to disqualification.

QUESTION #1: Per the last onsite meeting, OTS said it was safe to assume that the conduit to the light poles was free and clear.

1. Is there pull string available in each pole? **The only existing conduit to poles today is in Rogers Nursing and Health Sciences building and there is currently fiber from the MDF in that building to the corresponding pole in the conduit. No other conduits exist today to any parking lot location, but TJC will provide conduit with a pull string.**
2. Do the conduit paths go straight to the MDF of the nearest building, or daisy chain with other light poles? **Undetermined at this point. There will be a handhole or pull box located outside (exterior of building) between the nearest IDF and the designated poles.**
3. Can we get conduit pathway diagrams? **Diagrams do not exist, to our knowledge, of the conduit pathways in the RNHS parking lot.**

ANSWER: See answers above.

QUESTION #2: Regarding the Critical Criteria section and the “straightforward plan on reissuing IDs”, can you further define what you are seeking with this question. Are you asking about reissuing IDs in general or reissuing temporary IDs?

ANSWER: First, there needs to be a plan and demonstrated implementation/development in place for integration between the access control solution and our Elucian Banner SIS/ERP and Windows AD for onboarding/enrollment purposes. Second, reissuing IDs or issuing temporary IDs needs to

be a simple process that can be handled by multiple personnel in different departments. There are users in Campus Police and in Residential Life (student housing) that perform reissuing and issuing temporary IDs daily, so this process needs to be simple and have an easy knowledge transfer from staff to staff.

QUESTION #3: Are prevailing wages required for labor?

ANSWER: Yes.

QUESTION #4: In terms of storing equipment, is there a secure location on campus available for use or do we need to make arrangements for warehousing equipment?

ANSWER: The College will make arrangement for warehousing equipment on the Main or West campuses.

QUESTION #5: Addendum 8 states the College is working with another vendor for door hardware. Is this for all door hardware to include door contacts and request to exists, or locking hardware only?

ANSWER: Locking hardware only.

QUESTION #6: In Addendum 4, pages 4-19, are satellite maps with cameras and field of view notations. Are these maps representations of existing cameras or the desired locations of new cameras?

ANSWER: A combination of existing camera locations and desired locations. The campus map on page 3 shows the desired locations for new exterior cameras. Pages 4-19 represent current exterior camera locations and views.

QUESTION #7: Do you have an approximate number of how many pole mounts, arm mounts, or pendant mounts are needed for the cameras?

ANSWER: No, we do not.

QUESTION #8: Addendum 5, Binder #1: What is the building name of page 16, is this the OC building?

ANSWER: Dual Credit.

QUESTION #9: Addendum 5, Binder #1: Building OC does not show door types and closet locations. Please clarify if there are any door needs. A note indicates the closet is on the third floor. Please provide a print for the third floor.

ANSWER: An updated map of the second floor of OC has been attached with the IDF marked.

QUESTION #10: Addendum 5, Binder #1: In the Campus Security Annex I and II, please identify the door needs. The door legend is not utilized on these pages. One door is indicated and two others are not.

ANSWER: Only exterior doors will be included in the bid. One virtual; four outside readers; one inside.

QUESTION #11: Addendum 5, Binder #1: At the Pat Hartley building, page 37, please identify the door needs. The door legend is not utilized on these pages. Are all of these doors considered “exterior without access control”? What is the cable path to the concessions center?

ANSWER: An updated floor plan for the Pat Hartley building has been attached with the doors and IDF marked. The concession center will not have access control.

QUESTION #12: Addendum 5, Binder #1: At the Vaughn Hall building, page 39, please explain the comment “IDF on the outside of the building”. If so, we need to know where it is and if we need outside plant cable.

ANSWER: The IDF has been moved to a closet inside Vaughn Hall and an updated map with the IDF marked has been attached.

QUESTION #13: Addendum 5, Binder #1: Is page 41 and 42 the WCA building as shown on the table of contents, or is it the Jean Browne Theater, which is not given? Please indicate the closet(s) locations.

ANSWER: Page 41 is the first floor of WCA. The second floor will not have access control but a map will be included in the next addendum. Page 42 is the Welcome Center.

QUESTION #14: Addendum 5, Binder #1: Page 43 and 44 does not show an IT closet.

ANSWER: Attached an updated floor plan with the exterior IDF marked for Lewis and Wesley Hall.

QUESTION #15: Addendum 5, Binder #2: Doors types, counts, closets are not given for the Energy Center 1st and 2nd floors, page 49 and 50.

ANSWER: The only IDF in the Energy Center is located on the 3rd floor where all data and door connections are located. Existing CBORD equipment is located in this IDF. There are no exterior doors on the 2nd floor of the Energy Center and the front doors currently have CBORD access control. Door information and counts should be included in the documentation provided by facilities. The marked-up blueprint was also included in the attachments.

QUESTION #16: Addendum 5, Binder #2: The note on page 54 states the only IDF is on the second floor. A second floor plan is not given.

ANSWER: A map of the second floor of Grace has been attached with the IDF marked.

QUESTION #17: Addendum 5, Binder #2: The note on page 56 states the IDF is on the second floor. A second floor plan is not given. To which location shall we terminate the cables?

ANSWER: A floor plan for the 2nd floor of Vaughn Library has been attached with the IDF marked.

QUESTION #18: Addendum 5, Binder #2: Doors types, counts, closets are not given for the second, third, and fourth floors of Ornelas Hall, page 60, 61 and 62.

ANSWER: Floor plans for the 2nd-4th floor of Ornelas Halls have been attached with the Onity doors marked.

QUESTION #19:

Sites that have Clean Maps provided, but no Access Control markups found:

- a. Jenkins Hall
 - i. Floor 2
- b. Vaughn Conservatory
- c. New Welcome Center
- d. Wesley House – West Hall
 - i. Floors 1-2
- e. White Administrative Services Center
 - i. Floors 1-3
- f. Wise Cultural Arts
 - i. Floors 1-2
- g. Ornelas Center
 - i. Floor 2
- h. Ornelas A&B
 - i. Floors 2-4 (both A & B)

- ii. Onity locks are not specifically marked on each floor. Is it possible to get these?
- i. Energy Center
 - i. Floors 1-2

ANSWER: Jenkins 2nd floor will not have any access control or cameras, so a map was not included. All other maps have been attached.

QUESTION #20: Addendum 8 and others clarify the way to bid cabling to the door. However, the Onity locks/levers themselves are door hardware. Are we to quote replacing the locks/levers themselves, or is that to be a part of the door hardware bid?

ANSWER: That will be part of the separate hardware bid; not included in this proposal.

QUESTION #21: As the Onity locks are being replaced, one way or another, this RFP has requested cabling to each door, opting for door hardware later. Cabling to a door and a reader will have quite a variance in submitted costs as cable/conduit labor to a reader will be largely offset by the installation of wireless locks. How will the College grade/weigh these two possible proposed options in spite of the cost differential?

ANSWER: Wired locks are the preference, but we understand that wireless locks, that can be demonstrated as a reliable solution, may be more cost effective.

QUESTION #22: White Administrative Services and OTS are combined on maps and both had observable CBORD readers, but were not marked on the clean maps provided for WASC.

1. Could the College provide these designated markups?
2. Should OTS and WASC be considered separate facilities when bidding?
3. Should OTS and WASC be considered separate facilities in the Access Control Software Programming?

ANSWER:

1. An updated map has been attached.
2. No.
3. Yes, they should be set up as separate facilities in the software.

QUESTION #23: Similarly noted to 2, Wagstaff Gymnasium has two CBORD readers marked along the north facing exterior (near locker entry), but there was only one observable on the walk. As the bid is to cover all exterior doors, should this door be an assumed desired reader location regardless of absence?

ANSWER: Yes, all exterior doors will need to be included in the bid.

QUESTION #24: Noted that counts for Wesley House (Lewis and West) reflect the following:

1. Wesley House Lewis – drawing shows mark-up for 27 Onity locks, but addendum says 36.
2. Wesley House West – no mark-up on drawing to perform counts, but addendum says 27.
3. Are these numbers possibly flipped?
4. Will there be a marked-up Wesley Hall West drawing?

ANSWER: There are 27 locks in Lewis and West. An updated map has been attached.

QUESTION #25: Sites that say they have interior cameras but do not have a marked map in Addendum 4: Claridge Hall.

ANSWER: An updated map has been attached.

QUESTION #26: Are there more floors with cameras that didn't have their map in VI?

1. Example: Wagstaff Gymnasium cameras for the south portion of the 1st floor only provided.
2. White Administration had 1st and 3rd floor, but are there any on the 2nd floor?

ANSWER: Yes, only the floor plans with the field of view cone are mapped in VI. The others are not currently in our VI map module. There are no cameras in the other half of the Wagstaff Gymnasium or 2nd floor of WASC.

QUESTION #27: Cameras listed in addendum by model as in VI total 582 (581 if the 2N intercom is not included).

1. It's mentioned that 14 cameras are blurry. Is it possible the College could specify which cameras by building are blurry from VI?
2. Some counts don't have visual confirmation of counts:
 - a. Apache Recreation Center – Addendum says 13 cameras; however, the APC drawing provided is interior only and marks 5 cameras.
 - b. Rogers Student Center – Addendum says 56 cameras, but drawing counts are interior (21) and exterior (8) as marked.
 - c. Robert M. Rogers Nursing & Health Sciences – Addendum says 50 cameras, but drawing counts are interior (29) and exterior (14) as marked.

ANSWER:

1. These cameras have been designated in the attached report with the camera name in red.
2.
 - a. An updated map of the Apache Rec Center has been attached.
 - b. There are additional cameras in the testing center that makes up the difference. It is a very small area and difficult to illustrate the locations and views. These are all

- listed in the VI camera by building report. The VI report will show all of the cameras and specify which are in the testing center. (RSCTST)
- d. Cameras are listed in the attached report.

QUESTION #28: The Addendum states the College provides servers in question XX. Is the College looking for servers to be quoted to match any resolution increases?

ANSWER: We are currently using virtual servers. If a virtual server is not supported, then please include server pricing in the bid.

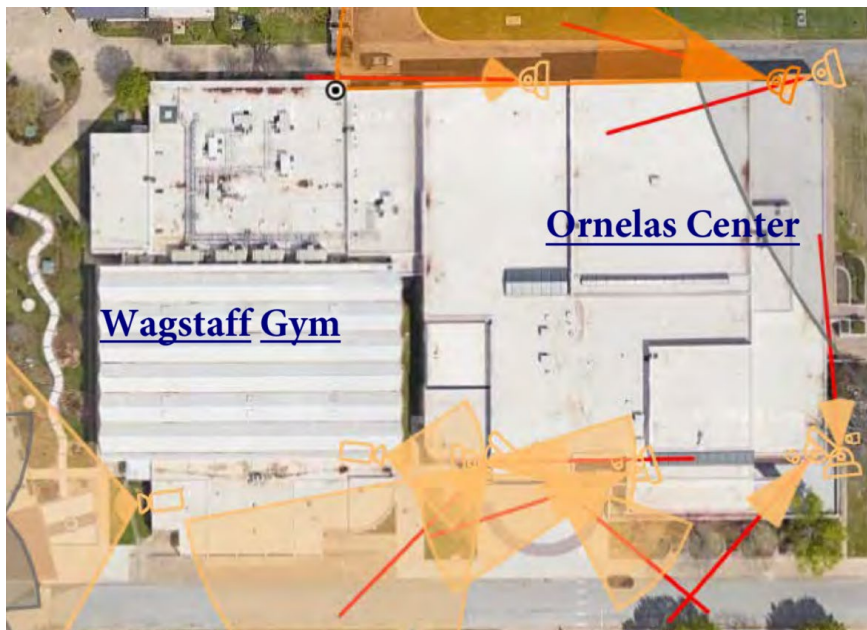

QUESTION #29: Noted that several cameras have smoke domes or clear domes.

1. Was this by choice on specific cameras or result of individual jobs providing smoke domes?
2. Does the campus prefer smoke domes or clear domes?

ANSWER: The existing smoke dome cameras were a result of individual jobs providing smoke domes. We do not have a preference if the domes are smoke or not.

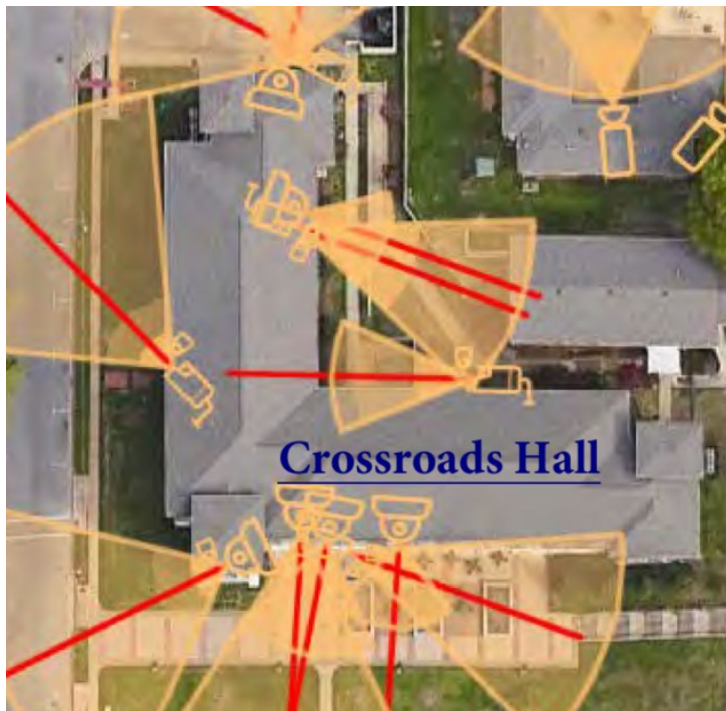

QUESTION #30: Greatly appreciate the effort in using IPVM to plot cameras for the bid. However, the orange can be difficult to differentiate with crossing FOVs on the exterior camera plots.

Example:

1. Wagstaff Gym – Interior 2, Exterior 2, Addendum says 7
2. Ornelas Center – Interior 24, Exterior 8, Addendum says 30
 - a. Are some Ornelas considered Wagstaff or vice versa?
3. In continuation of the above, here is the Crossroads Hall provision.
4. Counting by this location, it's legible as 11 cameras. Does the VI software have a naming convention set up to determine if a camera is interior or exterior, and can that report be pulled by the staff or manufacturer assistance?

ANSWER: A report has been attached that shows the number of cameras in each building. The camera names should show if it is an interior or exterior camera.

QUESTION #31: How many V1000 controllers are there currently?

ANSWER: 17 (see attached).

QUESTION #32: Do the new dorm locks require a manual key override? If so, do we need to provide cylinders or will the College provide them? If we are to provide, can you provide information on the cylinder required to ensure compatibility with the current keys (i.e. Sargent, Corbin Russwin, etc.)?

ANSWER: Yes, manual key override is required. Contractor to provide Corbin Russwin D blank cylinders.

QUESTION #33: Please confirm Access Control design intent from Addendum 05: Is the proposal presented by each vendor to only quote 2 new doors per building shown on the list of buildings?

- a. If this is the design intent for quoting the ACS in this bid, please verify the number of buildings. The building list shows 38 buildings.
- b. If this is not the design intent for quoting the ACS in this bid, is the intent to quote to take over ALL doors existing and provide hardwired new doors where specified?
- c. If 1.b is the accurate design intent, would you verify that the number of new hard-wired doors is 319 as previously stated?

ANSWER: The design intent is for two exterior doors per building to have reader access and all remaining exterior doors for each building to have access control as virtual doors.

QUESTION #34: In addendum 05 it is mentioned that the remaining doors are to be "virtual". Is this intended to require a like-for-like replacement of the Onity locks?

- a. If so, is the desire to replace the Onity locks with another "wireless" lock?
- b. If not, is the desire to replace the Onity locks with a unified, hard-wired solution?

ANSWER: Virtual doors as we define them are those doors that are controlled by access control but do not have readers. Wired locks are the preference, but we understand that wireless locks, that can be demonstrated as a reliable solution, may be more cost effective.

QUESTION #35: Please confirm server architecture intent. Will all archiving be centralized in a single location?

ANSWER: Yes, in the TJC data center.

QUESTION #36: Will there be a requirement for any workstations at any location other than a centralized security/operations center?

ANSWER: No.

QUESTION #37: Addendum 07 calls for a unification of cameras under one manufacturer. Is your intent to replace all cameras, including existing cameras already under the proposed manufacturer?

ANSWER: Potentially, but not necessarily.

QUESTION #38: Addendum 07 states that TJC will provide the guidelines for a service agreement. Is this to be included with this RFP or will this be confirmed afterward with the awarded vendor?

ANSWER: We do not have a draft, but the details will be worked out between the College and awarded vendor.

QUESTION #39: The provided floorplans for Ornelas Hall do not contain the color coding for having Onity locks. Should we include in our design to include locks for the dorm rooms in this building also?

ANSWER: See attached map.

QUESTION #40: Would TJC be able and/or willing to provide physical addresses of each building associated with this project as shown in the list of buildings?

ANSWER: The majority of these are 911 addresses only.

BUILDING NAME	PHYSICAL ADDRESS
Baldwin Facilities & Construction	1401 East Devine St.
Bateman Hall	1414 Magnolia
Campus Safety	1025 S. Baxter
Claridge Hall	1121 S. Baxter Ave.

	A	B	C	D	E	F
1	Exterior(EXT) and Interior (INT) cameras will be indicated in the camera name. Some buildings naming schemes differ, but they should all differentiate exterior from interior. <i>E.g. ARC does not indicate exterior cameras in naming but does include INT for the interior cameras.</i>
