The overall IPEDS based cohort is limited because it includes only students who entered TJC in the fall term as first-time (never attended a college before), full-time students seeking a degree, certificate or transfer. The Sports cohort(s) consist only of those First Time Full Time students receiving athletically-based financial aid, a very small portion of the overall student population. These numbers do not reflect students who transferred to other institutions and then graduated or the completion rates of the entire student population at TJC. They also do not reflect student outcomes occurring after the three-year tracking period.
